CLERICAL, MEDICAL, and GENERAL LIFE ASSURANCE SOCIETY.

Notice is hereby given, that the usual Dividend of five per cent. (less income-tax) on the paid-up capital of the Shareholders, will be payable at the Office on and after Friday, the 20th of August inst.

The small share of Profit divisible in future among the Shareholders being now provided for, without interfering on the amount made by the regular business, the Assured will hereafter derive all the benefits obtainable from a Mutual Office, while at the same time they will be completely free from liability, secured by an ample Proprietary Capital—and the advantages of both systems will thus be combined.

Persons assured will in future participate in the Profits in proportion to the number and amount of the Premiums paid between every Division, so that if only one year's premium be received prior to closing the books it will obtain its due share.

At the FIFTH DIVISION OF PROFITS, declared in January last, the sum of £31,284. was added to Policies then entitled, which sum produced a Bonus varying with the different ages, from 24l. to 35 per cent. on the Premiums paid, during the preceding five years; or from 3l. to 13l. 10s. per cent. on the sum assured.

The next and future Bonuses may be received in cash, or applied at the option of the Assured in any other way.

Credit will be given for half of the Annual Premiums on Policies for the whole of Life, for five years, at interest, to be paid off at the expiration of that time, or earlier, or remain as a permanent charge upon the Policy.

INVALID LIVES assured at rates proportioned to the increased risk.

Medical referees paid by the Society in all cases.

Claims paid in THIRTY DAYS after proof of death.

A copy of the last Report, containing full particulars, with the New Prospectus, can now be obtained of any of the Society's agents, or by addressing a line to

This Society is established to apply the principle of Assurance to Property as well as to Life; and its business consists of—

The Assurance of Defective and Unmarketable Titles, rendering them absolute and perfect.

The Assurance of Copyholds, Leaseholds, and Leasehold Property, thereby making them equal to, or even better than Freeholds, for all purposes of sale or mortgage.

The redemption of Loans and Mortgages, and guaranteeing their absolute repayment within a given period.

Increased and immediate Annuities granted upon Healthy or well as Diseased Lives.

The Fidelity of Clerks, Servants, and others Guaranteed upon the payment of a small annual premium, and a reduction of nearly one-half is made when a Life Assurance is combined with the Fidelity Guarantee Policy.

Life Assurances effected for the whole term of life, or for a term of years, and the premiums can be paid yearly, half-yearly, or quarterly.

Endowment and Education Assurances and Annuities granted; the premiums can be paid upon the reversionable or non-reversionable system, in case of death before obtaining the age agreed upon.

Immediate Annuities or increased incomes granted in exchange for Reversionary Interests.

Whole World Policies granted, and all Policies issued by this Society are Indisputable, except in cases of fraud.

Every information furnished, free of expense, by applying to

WILLIAM NEISON, Esq. Actuary and Secretary,

ADVANTAGES OFFERED BY THIS SOCIETY

Policies indisputable, except in cases of fraud.
All the medical fees paid by the Society.
Assurances of every description effected.

NON-FORFEITURE OF POLICIES.

Assurers unable, or who find it inconvenient, to pay their premiums as they fall due, may have a credit on application to the board.

Loans granted on personal and other securities, in connection with life assurance.

The directors, being desirous of extending the agencies in and round the metropolis and throughout the provinces, are ready to receive applications from influential and active persons, accompanied with a reference.

GEORGE THOMSON, Manager.
THOS. MUSGRAVE, Secretary.

MONEY ON LOAN, at 3l. per Cent. per Annum.—ARNKWAY'S CHARITY.—NOTICE IS HEREBY GIVEN, that the Trustees of this Charity are enabled to lend out the Trust Moneys to poor occupiers or traders resident within the City and Liberty of Westminster, that is to say, within the parishes of St. Margaret and St. John the Evangelist, St. Anne, Soho, St. Clement Danes, St. George, Hanover-square, St. James, St. Martin-in-the-Fields, St. Mary-le-Strand, and St. Paul, Covent Garden. The amount of each loan is not to exceed 100l. to be bear interest after the rate of 3l. per cent. per annum, and is to be secured by the bond of the borrower, with two sureties. Printed Forms of Application, and all necessary information, may be obtained by applying personally, between the hours of Ten and Three o'clock in the day, at the office of the Clerk and Solicitor to the Trustees, No. 14, Great Queen-street, St. James's Park.

By order, EDWARD S. STEPHENSON,
Clerk and Solicitor to the Trustees.

NOTE.—The Trustees meet on the second Wednesday in every month, to consider such applications for loans as have been sent in one clear week at the least before the first day of the month.—The sureties must be unexceptionable.

GUTTA PERCHA TUBING.—May be buried for years, without injury, and it is therefore valuable for conveying water, chemicals, &c. It is peculiarly valuable for liquid manure, drains, and soil pipes. Being a non-conductor, it is not affected by the frost of winter or drought of summer, like metal or earthen. Its strength is extraordinary; the small half-inch diameter tubing having resisted a pressure of 250 lbs. on the square inch, without bursting. The smaller sizes may be had in 100 feet, and the larger in 50 feet lengths. The joints are readily made. As a conductor of sound it is most valuable for conveying messages in time of bells. Every variety of articles manufactured by the GUTTA PERCHA COMPANY, Patentees, 18, Wharf-road, City-road, London; and sold by their wholesale dealers.

Wholesale City Depôt, Messrs. BURGESS and KEY,
132, Newgate-street.

TO ARCHITECTS, BUILDERS, &c.

ALL descriptions of TERRA COTTA, CEMENT, and PLASTER CASTINGS, executed in a first-rate manner, on reasonable terms, by J. HERBERT and SON, Modellers, &c. 41, Parker-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals; Centre Flowers, Balusters, Trusses, &c.; Elizabethan and other Chimney Shafts.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and CO. solicit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture thereof during the present year will insure to them a continuance of that patronage with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall.

March, 1852.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL.
Light and Dark equal to any made.
Also, Manufacturers of PLASTER, MASTIC,
Importers of MARBLE and POZZOLANA.
Dealers in Slates, Slabs, Hair, Whiting, &c.

ROMAN and OTHER CEMENTS. Manufactured by J. M. BLASHFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Tarras and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Trusses, &c.

Manufactory, Mill Wall, Poplar; Depôts, Commercial-road, Lambeth, and Paddington-basin.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick-setting cement that requires no colouring.—Sold exclusively by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster; and Beel-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal use.—These well known hard stuccos dry quickly, and can be painted upon within a few days. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not affected by frost. As a mortar for brickwork, it may be mixed with three to four parts of sand; and, for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank-street, Westminster, and Beel-street, Liverpool.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Mill-wall, Poplar; St. Andrew's Wharf, Earl-street, Blackfriars; or Middle Scotland-yard, Westminster. Manufacturer of Roman, Lias, and Mastic Cements, French and English Plaster, &c.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON, at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place, as also at his Wharf, in London, 4, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PORTLAND CEMENT, in Casks of Four Imperial Bushels QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

[illegible] Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality in deterioration never before attained in Portland Cement. It possesses extraordinary resistance, quickly resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack; manufactured with which its cement is peculiarly adapted, may be used on the first moment of the day for work when all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq. at his Works, near the River Avon, and sold by all parts of the Kingdom per boat or rail, at a reduced price to the trade.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour by STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One cwt. will cover 250 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or repulses; soon becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agents, PHILIP HARE and Co. at the Warehouse, 28, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppy Stone, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. It has been long used at the great Breakwater at Cherbourg, in a similar work at Alderney, and at Dover New Pier, to unite the masonry. The foundation of the centre pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new groyne at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and shingle. The work extends 200 feet into the sea, and is exposed to the most violent gales of the Channel, in a position where every former construction had been repeatedly washed away. The inconvenience of the varied qualities of Roman Cement are superseded by the use of this improved manufacture.

CHAS. FRANCIS and SONS, Nine Elms, London; or West Medina Mill, Newport, Isle of Wight.

Agent for Southampton, R. L. FLUDER, American Wharf.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above ground renders it cheaper for concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle, leaving scarcely any core. The satisfaction constantly expressed by Engineers, Architects, and Contractors, of the above, is the best recommendation.

Gibbs, Canning, and Co.'s Blue Vitrified Bricks, Pipes, Junction Bends, and Fire Goods.

ROMAN, PORTLAND, PARIAN, ASPDIN, and LIAS CEMENTS of the best quality.

SECOND'S, PAVIORS', STOCKS, and other Bricks.

CHARLES RICHARDSON, 6, South Wharf, Paddington.

THOMAS FREEN and CO. LIME BURNERS, Wouldham-on-the-Medway. Grey and Chalk Lime supplied by the freight, direct from the Kilns, or fresh from their chalk, via Canal-road, Kingsland-road; Queen's Wharf, Great Cambridge-street, Hackney-road; or King's Wharf, New Wharf-road, Battle-bridge. N.B. Laths, Tiles, Chimney-pots, Plaster, Hair, Welsh Goods, &c. &c. &c.

MARBLE.—Mr. J. FABBRICOTTI, of Carrara, Italy, Proprietor of Marble Quarries, and the only person in the United Kingdom selling Italian Marble the produce of his own quarries, begs to inform the gentlemen connected with the marble trade that he has established in London, the most extensive Depôt of Statuary, Veined, Sienna, Dove, and Black and Gold Marbles, at CARRARA WHARF, THAMES BANK, PIMLICO, the foot of Vauxhall-bridge.—Offices, 8, Crescent-terrace, Millbank. Mr. THOS. THOMPSON, Agent.

Medieval Works, Memorials, Fonts, Screens, etc.
AT A VERY ECONOMICAL RATE.

SAMUEL CUNDY, Mason and Builder, PIMLICO MARBLE and STONE WORKS, Seymour Wharf, Lower Belgrave-place, Pimlico.

MARBLE CHIMNEY-PIECES manufactured by improved machinery. The public are invited to view the stock, unequalled for quality and price.

A GOOD MARBLE CHIMNEY-PIECE FOR FORTY SHILLINGS.

A liberal discount to the Trade.

MARBLE WORK in all its branches, at a remarkably cheap rate, for HALLS, DAIRIES, LARDERS, &c. &c.

Circulars sent on application.

N.B. The "Royal Blue" Omnibuses pass the Works every ten minutes from the Bank.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELSH SLATE SLABS, planed both faces, will be sent on application (post paid) being made, and inclosing a postage stamp. The prices are under those advertised for inferior slates.

VALENTIA SLATE SLABS.—The Valentia Slab Company invite attention to their Slate now supplied, of very large dimensions and of superior quality. They have been used at the British Museum, National Gallery, Bethlem Hospital, various lunatic asylums, the Ordnance Works, Model Prison, Pentonville, and other public establishments, Malting Floors in Bedfordshire and Hertfordshire, Breweries, the Race Stand at Brighton, Portsmouth Barracks, and are kept in stock in large quantities at Freeman's Wharf, Millbank-street; also by Messrs. SHARPE, Tooley-street; and Messrs. BRABYS, Belvedere-road, where terms may be obtained.

THE PIMLICO SLATE WORKS, Patronized by Royalty, the Heads of the Nobility, the Clergy, Architects of Eminence, Builders, Railway Contractors, and the Public generally.—MAGNUS'S ENAMELLED SLATE (notwithstanding the vile imitations and infringements of his patent that are attempted), continues to grow in favour with the public, being handsomer, more durable, and very much cheaper than marble.—Price lists and a sheet of drawings, sent to any part of the kingdom free. Chimney Pieces, Pillars, Dairy and Larder Shelves, Wine Cellar Fittings, Slabs, and every variety of plain Slate Work, at prices that defy competition.—89 and 90, Upper Belgrave-place.

TERRA COTTA and SCAGLIOLA manufactured by J. M. BLASHFIELD, Mill Wall, Isle of Dogs, and sold at No. 1 Wharf, Praed-street, Paddington.

Vases, trusses, frieze, capitals, coats of arms, chimney shafts, bracket, flower pots, and all ornamental work required in stucco, heat and frost without cracking or changing colour, may be had at nearly the same cost as coarse stucco.

Terra Cotta is more durable than iron, granite, marble, or stone, and may be made of black, red, and light cream colours of every shade. It can be more enriched and delicately wrought than other stone or marble, and architects can have their own designs modelled and fired in this material (without moulding) and the chance of copying) fresh from the hands of the artist.

ASPHALTE.—GERVASE FOOTTIT, Trinidad Asphalte Works, Rotherhithe; established 1838. Every description of Flooring laid with the above durable material in the best manner. Asphalte for Railway Arches, 40s. per ton. Importer of Trinidad Asphalte.
